

First Circular ElecMol'08

4th International Meeting on Molecular Electronics

December 8-12, 2008

Scope

The joined community of physicists and chemists of Grenoble and Strasbourg is organizing the *fourth edition of this meeting devoted to the recent progress in molecular and organic electronics.*

The scope of this interdisciplinary meeting is to focus on specific aspects (**Topics T1-8**) of molecular and organic electronics, including:

- T1**: Single Molecules & Quantum Dots: Junctions, Memories & Switches
- T2**: Organic Electronics: Materials & Devices
- T3**: Organic Optoelectronics & Photonics: Materials & Devices
- T4**: Graphene, Carbon Nanotubes & Nanowires: Synthesis & Devices
- T5**: Self-Assembly & Supramolecular Architectures
- T6**: Scanning Probe Microscopies & Near Field Approaches
- T7**: Molecular Theoretical Modelling
- T8**: Bioinspired Approaches & Biomimetic Devices

Scientific Program

The program will consist in

- **20** Invited Lectures (**40'**)
 - **35** Oral Communications (**20'**)
- and

- Poster Communications selected from the contributed abstracts

A list of invited speakers will be soon available online @ www.elecml.com

Location MINATEC/HMNT

The meeting will be held in Grenoble within the House Of Micro & NanoTechnology of CEA's MINATEC center (www.minatec.com)

Fees

- Admission to the meeting, Program & Book of Abstracts, Welcome Reception, Conference lunches, & coffee breaks
- accommodation not included!

Full Conference Fees:

350 Euros
(including 19.6% VAT)

PhD Students & Post-Docs Conference Fees: 150 Euros

(including 19.6% VAT)
